NEGRO'S THICK SKULL SAVED HIS LIFE.

Bullet Fired at Dan Oates at Clos-Range Flattens and Inflicts Only a Bruise.

OLD GRUDGE CAUSES SHOOTING

George Holmes Slips Up Behind His Enemy and Shoots at Him Twice Within Arm's Length.

Dan Oates's thick skull is the only thing that stood between him and eternity yesterday afternoon. It intervened between his brain and a 38-caliber bullet that was intended to plow its way through his gray matter. The bullet, fired from a distance of three feet, produced as little effect on Oates's skull as the Gathman dynamite shell did on the target at the first test at the proving grounds out East a few "Holy Scripture tells us 'there is not a days ago. friends were playing cards yesterday after noon in a saloon on Twelfth and Wash streets, when George Holmes, another negre, with whom Oates has an old grudge entered. Oates was seated with his back to the door. At the sight of his enemy Holmes drew a revolver and, slipping up behind Oates, fired two shots point blank at the back of his head, almost within arm's length of his victim. The first bullet missed its mark, but the second struck square upon the thick bone at the back of Oates's skull. Believing he had settled

the grudge forever, Holmes ran away, and has since evaded capture. Oates was under the impression that some bolisterous friend had knocked his hat off in horse play, and, annoyed at be ing disturbed in the game, reached down for his hat and found the flattened bullet lying beside it. Then he thought there might be "something doing," and was searching himself for the second bullet, when the police arrived and took him to the dispensary.

Doctor Vogel examined him and found
that he was uninjured, save for a small
bruise where the bullet had flattened itself on the skul'. The surgeons pronounced his escape from instant death remarkable

under the circumstances. Oates was locked

up at the Fourth District Station.

If Boyd Is Nominated, His Confirmation May Be Opposed-Kerens Called to New York.

The Republic Bursau, 14th and Pennsylvania Ave. Washington, Dec. 1.—Sunday did not pass as a day of rest, for the warring factions in the Kerens-Akins fight.

Various conferences were in progress by the leaders of the opposing forces and plans outlined for final hearings at the White House during the week.

Although it is practically settled that Boyd will be appointed, the Kerens allies do not admit this, and from appearances they will go once more before President Roosevelt with as much vigor and per sistence as if victory were to be assured by

Congress is expected to do very little on Monday, which will give the President an opportunity to talk with leading members of the Senate and House. Many of Colonel Kerens's friends in the former body who have arrived to-day, are certain to take hand for the national committeeman, fully realizing what a defeat will mean for him and the Republican national organization. There are some who predict that these forces may yet secure the reappointment of Smith, or, failing in that, persuade the President to take the matter entirely in his own hands, and appoint a neutral can-didate. But this result is not looked for by the majority of close observers of the con-test, and, in spite of the tenacious fight Colonel Kerens is making, it still seems to be reasonably certain that Boyd will be appointed.

May Fight His Confirmation.

Chairman Akins has fixed no date for his return to Missouri. This will depend on the decision in the surveyorship. When Boyd's name is sent to the Senate, the friends of Kerens there may delay confirmation, and the fight thus may be shifted from the the fight thus may be shifted from the White House to Capitol Hill. This might require the presence of Chairman Akins and Colonel Kerens for some time to come.

mmediately as a mark of respect to the nemory of the dead President. The annual message of President Roosevelt will not be read until Tuesday, and on this account the session of Monday will be exceedingly brief. It is not now expected that anything will be done on that day beyond the announcement of the death of Senalor Kyle, following which the Senate, in

accordance with custom, will adjourn for the day. On Tuesday the President's message will be read, and, after its reading, the announcement of the death of President Mc-Kinley will follow at once, whereupon, under the precedent established when Presidents Lincoln and Garfield died, resolution providing for the appointment of a committee to act with a similar committee of the House of Representatives to take appro priate action relative to the matter and then calling for the immediate adjournment

The first subject demanding attention is reciprocity. Various treaties are now pendng in the Senate looking to commercial agreements between the United States and ther countries, Senator Aldrich will renew his effort to have these treaties, which already have been reported from the Commit-Committee on Finance on the ground that they deal with tariff questions. The friends of the treaties will press this demand, and the preliminary skirmish expected to en-sue probably will serve to develop some in-

It is rather a remarkable coincidence that Mr. McKinley was the chairman of the committee which arranged the programme when President Garfield died. Blaine proounced the eulogy upon that occasion. Elihu B. Washburne was chairman when Lincoln died and George Bancroft, the hisorian, was the orator.
